

Invitation to the Post-Graduates Colloquium in Plant Sciences

“Havel-Spree-Colloquium”

Friday, November 16th, 2007

This year the Ph.D. students from the Freie Universität Berlin will be the host of the 2007 “Havel-Spree-Colloquium”. We are happy to invite you to this event which is a great opportunity for the post-graduate students from the Berlin and Potsdam area to present their PhD thesis to the wider public, discuss scientific problems and exchange ideas in the field of plant science. Of course in the end of the day there is a good chance for continued discussions in an informal and relaxing atmosphere.

All interested participants are asked to send in their name, research group and abstracts for their presentation by October 1st 2007. Your presentation and the following discussion should not exceed the limit of 15 minutes, while the abstract should not exceed 300 words. Presentations in English are preferred.

For organisation reasons, we would also like to ask you that no more than 2 people from each group apply for a talk. In this case we would value your opinion on the priority of the talks in each research group, although we reserve the right to make the final selection. Guests are welcome to attend the colloquium, however for the reason stated above, we kindly ask that you inform us of their arrival. The abstracts, presentations as well as all relevant information should be sent to sfranz@zedat.fu-berlin.de and the registered participants will receive the detailed programme in the Middle of October.

Please feel free to forward this invitation to the interested parties in your institutions and post it on notice boards. We welcome all post graduates, their supervisors, students and scientists interested in plant science.

With kind regards,

Sandra Franz
Havel-Spree Organising team
